Prepared by: Preston Conder | Last Revised: July 24, 2019

Outcomes: Your disciples are following Jesus and fishing for people. Your group has made a covenant and is now a church (functions like Acts 2:42-47). You have developed leaders who are leading your church. Your disciples have started their own group which has now become a church with caring leaders. You have multiplied 4 or more generations of disciples, churches, and leaders. God has started a disciple making movement!
